Filming in HDV, DV CAM or DV — using 3CCD cameras for clarity and quality. Editing is effected quickly and efficiently using our state of the art Dual Processor Apple Mac Suite and Final Cut Studio 2, along with all ancillary equipment and software. Sound is recorded in Hi Fi Stereo Dolby Digital using Sennheiser Microphones and Kit.

With over 20 years of experience of filming Weddings and Corporate Events, we are undoubtedly one of the most professional and imaginative companies in the region and can guarantee the best possible end product.

Our Wedding Films include a wide range of clients and venues across the South of England and a long history of satisfied customers. From the HMS Warrior to Cathedrals, from local village churches to top flight hotels, we have filmed in all conditions. Come rain, or come shine, we will produce the goods and have never let a customer down

Some corporate contracts completed over the past five years include— Training and Induction Video for P&O Shipping, Product Video for Pentax Surveying Equipment, Customer Profile Studies for Ricoh NRG Europe, An information film regarding the change from Partnership status to an NHS Trust for Hampshire, Launch Promotion for Virgin 360 Aircraft Seating, Conference Coverage and A/V presentation for Virgin Holidays etc.

We also work closely with John Barlow—who is now a Senior Lecturer at Southampton Solent University, in the Faculty of Media, Arts and Science. John runs Performance and Filming Courses and Manages the use of the University's extensive media facilities.

These include a broad range of cameras, sound and editing suites and a fully-equipped broadcast studio which is jointly funded and used by ITV Meridian.

John has worked alongside our Producer Carl Dearing, for some five years now, making films for a range of commercial clients. He is involved with Production Planning, Scriptwriting, Editing and Graphics. Previous credits include Director of Photography for Howards Way (ITV).

Case Studies

Several years ago we completed a Wedding Film for Amanda Lamb (TV Presenter) and her husband. The ceremony took place in South London, with the Reception at the Kew Bridge Steam Museum.

We have filmed Weddings aboard HMS Warrior in Portsmouth Dockyard several times and have worked at many different venues including Registry Offices, Churches, Cathedrals and Hotels throughout the South.

We always work particularly well with the official Wedding Photographers and can guarantee that everything about the shoot will run smoothly.

We are always open to suggestions as to how you would like things done and have covered many less conventional Weddings from Ethnic Extravaganzas to Wild West Weddings and Bikers Blessings.

The unexpected and the unconventional will never catch us out, but we are more than happy to provide coverage of the traditional ceremonies too!

Over the years, we have been praised many times for our quiet professionalism, our imaginative camera shots and our thorough approach.

Whether filming the Brides Preparations, or getting the close-ups at the Ceremony, you will hardly know that we are there, but will love watching back every moment of your special day.

LET US ADD **YOU** TO THE LIST OF SATISFIED
CUSTOMERS!

Wedding Film Production at its best !

With 20 years of experience in the Weddings and Corporate market O2W Productions have a lot to offer !

Our Producer - Carl Dearing, is adept at taking the brief and making a stunning film using our expertise and state-of-the-art equipment and is himself an excellent Lighting Cameraman and Editor.

The team consists of Cameramen, Sound Engineers, Presenters, Voice-Over Artists, Editors, Graphics Designers, Script / Storyboard Writers, Music Composers and Lighting Technicians and we can handle assignments of any size and description.

Shooting in High Definition on Sony HDV Cameras and recording sound in Hi Fi Stereo Dolby Digital, we edit using the latest software including Final Cut Pro Studio 2 which incorporates Apple Motion 3, Soundtrack Pro 2, Apple Colour, Compressor 3, Live Type 2 and DVD Studio Pro 4.

We also have a suite of high-spec PCs and can edit in Adobe Premiere, use Adobe After Effects, Photoshop Creative Suite and other PC Software.

O2W has full access to all the facilities at Southampton Solent University, which include a fully-equipped Green Screen Studio, Sony Broadcast Cameras, Lighting Rig, DAT Recorders, A/V mixers and much more.

We undertake most of the commercial film projects for the University and can therefore enlist the help of Media Students and experienced Academics—including a number of ex-broadcast professionals.

We also have access to the skills available in the Graphic Design and Art Department.

What Can We Do For You ?

If you want the best possible Wedding Video—then look no further. From the basic package (including attendance by Cameraman, all post production and delivery on DVD, complete with face label and cover), to the grand event which may include extra cameras and other extra features, One 2 Watch Productions can come up with the goods ! Please have a look at the booking form attached for the various options available and do not hesitate to contact us on the numbers provided if you would like to book, check availability, or just get more information.

Recommendations have led us to film Weddings for entire Dynasties - sometimes five new brides or more from the same extended family !

Despite the experience, the technology and the professional approach, we strive to deliver the best film to match your budget, we are flexible and friendly and will always try to accommodate your wishes for the style and scope of the event.

We can film the whole thing, silently and in-obtrusively, in the traditional `fly on the wall` fashion, or can spice things up with a presenter and / or extra camera angles and with the use of appropriate music we will select, or you can choose in advance.

Our aim is to provide a film which sums up your beautiful day, with colour and sound and gives you a keepsake which will entertain you and your friends and family for years to come.

Our special options include :

The Smoochy bit - A summary of the best moments of your day, the romantic parts, the close-ups, the slow motion shots, all set to your favourite piece of slow and sexy music !

The Brides Preparations - Following the ups and downs of those few hours before the Ceremony. The Bride and The Bridesmaids at home getting ready.

Scanned Photos - Including some of your old photos in the film—perhaps childhood snaps of the Bride and Groom, or Holiday snaps / Family Groups.

The First Dance - Staying on a bit later in the evening to catch the start of the disco or live band and the first dance led by the Bride and Groom.

Extra Cameraman / Presenter - Providing an extra Cameraman and /or a Presenter, to capture those extra shots and special angles and conducting short interviews with the guests and family.

WEDDING FILM PACKAGES

(What's included)

Basic Package - Includes attending the Ceremony and the Reception and filming to the end of speeches. £ 435.00

This package involves a representative of O2W turning up at the Church or Civic Venue approximately one hour before the Wedding Ceremony. We will film background shots of the venue and capture the arrival of guests, the arrival of the Groom, the Bridesmaids / Page Boy and finally the Bride. We then move inside the venue to capture the entire Ceremony and afterwards, the photo-session either inside or outside. The next shots will record the arrival of the Bride and Groom at the Reception venue and the guests relaxing and waiting for the Reception meal. Finally, we will record all of the speeches after the meal.

Silver Package - Extra for Brides' preparations at home (Earlier start time) £ 90.00

This package includes all of the above, but we will start earlier—to capture the Bride and Bridesmaids getting ready. Typically this would involve starting a few hours earlier and assumes that the preparations take place within a reasonable distance from the Church / Civic Venue. Normally we would record the Bride / Bridesmaids having their make-up done, relaxing and chatting and then a shot of the bride as she emerges fully ready for the Ceremony.

Gold Package - Extra for filming through the evening until the `First Dance` £ 50.00

This package includes an extra charge for staying on longer—after the Speeches are completed. Typically, this would involve general filming of the married couple and their guests relaxing and waiting for the evening party to start. We would then capture some shots of the guests dancing to a live band or disco and culminate with a full recording of the married couple's first dance.

Platinum Package - All the above (Preparations, Ceremony, Reception, Evening) £575.00

Optional extras :

Special Effects - (Summary of the best bits with music added to the end of your film) + £ 50.00

At the end of the Wedding Film—we add an extra edit which shows a short summary of the day, including all the funniest and most romantic moments. This is accompanied by special effects such as silk filters and fancy video wipes and the soundtrack is an appropriate piece of romantic music.

Photos - (Include scanned photographs provided by client) + £ 50.00

We can also add a sequence which includes photographs provided by the families. These are scanned and included in the film, either as a separate sequence, or at appropriate points in the main film or the Special Effects sequence at the end.

High Definition DVD Authoring - (HD Player & TV Required) + £75.00

To provide the film on a High Definition (HD) DVD requires extra rendering time and complicates the DVD Authoring process. There is therefore an extra charge for this service and extra copies are also slightly more expensive. The default product is supplied as a Standard Definition DVD which is playable on all existing computer and domestic DVD players. As the filming is done in High Definition, the quality of this product is as good as any normal DVD film.

We hope this helps to explain our normal filming and editing processes, but please remember that our ultimate goal is to ensure that you get an entertaining and enjoyable record of the Special Day !

We will always be flexible and try to get the best coverage and if you have any special plans or points of interest that you want us to include, don't hesitate to ask.

As the day can sometimes be quite long, we would ask that you consider providing for some light refreshments for our operative at the appropriate time.

We thank you for considering One 2 Watch Entertainments for your Wedding Film and look forward to meeting you on the day !
